**Legend: Class Period (CP); Lookback Period (LbP); Last-In-First-Out (LIFO)**

1 Sales during the LbP are matched to class period purchases utilizing LIFO.

2 Post-class period sales valued using the greater of: (1) the average closing price between the end of the class period and the sales date; or (2) the actual sales price.

\* Disregarding losses not attributable to the alleged fraud from intra-class period sales matched to intra-class period purchases.
